~~I don't really know.~~
I heard about it from a freind, who reccomended it. I read the third and sixth book, then bought the books 1-5 but didn't really understand them, then (finally) I read them again and loved them. So, all of them, really.

In March (which is like half a year ago), I saw book two(the lost heir). Borrowed it and read it in two days. When I finished it I was itching for the first one(the dragonet prophecy). I borrowed it and now finished whole first series, and there you are! P. S. I'm still searching for the second series books

My favorite was the 4 book because I think i'm mostly like Starflight. (Brainy/know-it-all) Also, I need libraries so I can read more Wings Of Fire. I'm done with 1-10, but I don't know where book 11 is near me. Anyway, it's book 4. (The Dark Secret).

UR DONE READING! READ SOMEONE ELSES NOW!

Omg YASSSS!ME TOO! DARKSTALKER IS ONE OF MY FAVORITES!i have the book, and i made a poster of him, fathom and clearsight . And i think he isn't evil either. Why would people think that. He was trying to do the right things and he did! Also , i call him by what i think his rightful name is. KING Darkstalker.of as i usually would say- ALL HAIL KING DARKSTALKER

OF THE NIGHTWINGS!And yeah , i like moon rising too.Moon is ok.i don't think its personal , but I ship winter watcher with my life. Book seven is another book that made me a ranking. Ive read it 6 times yet i still love it. I have read the legends about 11 times in a row. Moon rising 5 1/2 science i was introduced to this series. Don't you love the part where winter get's into 1st circle. Tears of joy from me and silent whoops and oh yeah, take that snowflake.(no offense to snowflake lovers)my name is diya, I'm in Texas , and i am a NightWing icewing hybrid. I also read land of stories, secret series,and Harry Potter. I read wonder as well. And the menagrie trilogy. And like 6 more books and series but that's too much. I'm really happy to find another king darkstalker lover in the fandom. every fan I've met. Likes clearsight. I mean, yeah understandable , but darkstalker is better in my opinion. I have lots of opinions but I don't want to hurt anybody. I'm sorry if this is very long. Lol, this is what happens when i meet someone who likes the same things i do.Well , Alayna,Shout out to you. You r really cool and amazing.even if I

haven’t met you in person. So , have a nice week. And one more thing.KING DARKSTALKER FOR LIFE!

The first book. I was in love at the first sentence. :D
I have always loved dragons but to actually find a book series about them that was written by one of the Erin Hunters, was a dream come true.

Has anyone noticed that almost everyone started reading WoF in 5th grade (including myself)?

Also no offence peeps but I think TDS is the worst book in the series. So boring. Nothing really happens. Just a couple hundred pages of pure rambling. Again sorry.

Yay me too! I memorized a entire conversation between glacier and winter. I also remembered when winter got to first circle, page 256 to 258. I love that part, makes me cry every time. I also love the legends. They are part of my life now and always will be. All hail king darkstalker. Now that is something that i can agree on as well.

By far my favorite in the second series (6-10) is Talons of Power, because Turtle is afraid, but he still pulls through, that's also why I really liked The Dragonet Prophacy, because both him and Clay thought they couldn't do it, but still pulled through for the team.
